THE ALL-GLASS  
SYSTEM

# INCANTO

Watch the video

glass is the protagonist

## DESIGN

The internal structural elements are concealed by the subtlety and elegance of the glass to which the EXENS handle is directly affixed. The understated aesthetics of the aluminium also ensure the elegance and sophistication of the external façade.

1

## STANDARD FEATURES AND SOLUTIONS

2

### AURORA EXENS HANDLE

This innovative handle has a minimalist yet elegant style. There is no back plate and so only the handle is visible. Casement, tilt&turn and micro-ventilation opening is possible thanks to its 90°, 135° and 180° rotation capability.

### SECRET HIDDEN HINGE

The SECRET hidden hinge for leaf and tilt&turn leaf has discreet, integrated fittings and therefore no accessories are visible from the outside.

### DRAINAGE CAP

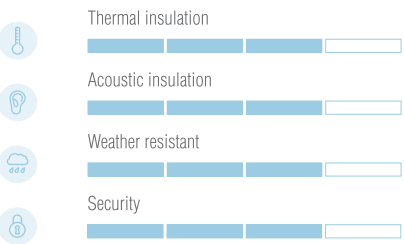

Maximum attention to detail is ensured with the inclusion of an aluminium cap, which matches the colour of the window frame and covers the external holes used to drain water and condensation.

## PERFORMANCE

3

The thermal break in the window ensures excellent thermal insulation against extreme temperatures, guaranteeing comfort and wellbeing at home both in winter and summer. The triple sealing system guarantees an excellent acoustic insulation.

### INCANTO

## THE MAGIC OF GLASS

The INCANTO window makes every space unique and adds a real touch of class to any modern setting.

The commanding role of the glass leaves a truly prestigious mark on any room: INCANTO is a high-tech window solution with a strong personality.
